

Engagement / Couple Photography Shoot

Themed & un-themed shoots available

Whether you have just got engaged or are a couple very much in love, we want to hear from you! With our photography we can work with you, to photograph your bond, capturing your love and beauty in the form of an everlasting photograph.

If your planning your wedding, why not take time out for yourselves? These shots are great for your invitations to, or perhaps your guest book or photo board for guests to sign at your wedding?

The big question...

What style of photography shoot would you like? Just like our trash the dress shoots we offer an alternative style of photography, out of the studio and in to the open air! These shoots will be on location, it is your choice where we photograph you; it could be where the proposal took place, in a park, a lifestyle shoot in your home, beside a lake, a candlelit meal or something a little more comical! There are no limits, what are your hobbies? You could incorporate those. If you want something a little different then have a think or contact us and see what we come up with!

Finally, the price...

A beautiful engagement or couple shoot, a wonderful opportunity for just £100! The price includes a minimum of 10 stunning high resolution digital photographs that you can print time and time again! All processing costs and artistic effects are included, our time and coverage is included and travel expenses within 25miles of New Quay are all included in the price.
